

**Goods subject to sanitary and epidemiological supervision (control)
at the customs border and customs territory of the Customs Union**

Section I.

LIST

1. Food products (products in natural or processed form that are used for human food), including those obtained using genetically modified (transgenic) organisms (from the following groups united Commodity Nomenclature of Foreign Trade of the Customs Union (CU HS): 02-05, 07-09, 11-25, 27-29, 32-34, 35).
2. Goods for children: games and toys, bedding, clothing, shoes, teaching aids, furniture, strollers, bags (backpacks, backpacks, briefcases, etc.), synthetic polymer and synthetic materials for the manufacture of goods for children (from following groups HS TC: 32, 34, 39, 40, 42-44, 46, 48-56, 60-65, 87, 94, 95).
3. Materials, equipment, materials and supplies used in the field of drinking water supply and wastewater treatment, swimming pools (of the following groups HS TC: 38-40, 48, 84, 85).
4. Perfumery, cosmetics, oral hygiene products (from the group HS TC 33).
5. Chemical and petrochemical industrial products, household products (from the following groups HS TC: 32-34, 38).
6. Polymer and synthetic materials for use in construction, transport, as well as for furniture and other household items; furniture; textile garments and knitted materials containing chemical fibers and textile auxiliaries; artificial and synthetic leather and textile materials for the manufacture of clothing and footwear (of the following groups HS TC: 32, 39, 40, 42-44, 46, 48, 50, 51, 53, 55- 59).
7. Production of mechanical engineering and instrument manufacturing, medical and household purposes, other than spare parts for vehicles and household appliances (except for contact with drinking water and food) (of the following groups HS TC: 38, 84, 85, 90).
8. Printing and Publishing: educational publications and manuals for general secondary and higher educational institutions, book and magazine publications for children and adolescents (from the following groups HS TC: 48, 49).

9. Products from natural raw materials in the production process undergoing treatment (painting, impregnation, etc.) (of the following groups HS TC: 43, 44, 46, 50-53).

10. Materials for the product (s) that come into contact with human skin, clothing, shoes (of the following groups HS TC: 39, 40, 42, 43, 50-60).

11. Production, products that are the source of ionizing radiation, including generating, as well as products and goods containing radioactive substances (of the following groups HS TC: 25, 26, 28, 68, 69, 72, 74-76, 78 -81, 84, 87).

12. Building materials and supplies, where hygienic standards regulated by the content of radioactive substances, including industrial waste recycling and utilization in the economy, ferrous and non-ferrous metals (scrap) (of the following groups HS TC: 25, 26, 28, 68, 69, 72, 74-76, 78-81, 84, 87).

13. Tobacco products and raw tobacco (from the group HS TC 24).

14. Personal protective equipment (of the following groups HS TC: 39, 40, 64).

15. Pesticides and agrochemicals (of the following groups HS TC: 31, 38).

16. The materials, products and equipment in contact with food (of the following groups HS TC: 39, 44, 45, 48, 63, 70, 73. 76).

17. Equipment and materials for air handling, air cleaning and filtering (of the following groups HS TC: 38-40, 48, 84, 85).

18. De-icing reagents (from the group HS TC 38).

19. Other goods in respect of which one of the parties introduced temporary sanitary measures (of the following groups HS TC: 02-96).

Section II

LIST

Goods subject to state registration

1. Mineral water (natural table, medicinal table, therapeutic), bottled water, packaged in containers (including for use in baby food), tonic beverages, alcoholic beverages, including low-alcohol products, beer.

2. Specialized food products, including baby food, food for pregnant and lactating women, dietary products (medical) power supply products for athletes (hereinafter - specialized food products); biologically active food additives, raw materials for the production of biologically active food supplements, organic products.

3. Food products produced using genetically modified (transgenic) organisms, including genetically engineered microorganisms.

4. Additives, complex food additives, flavorings, vegetable extracts as flavoring substances and raw materials, starter cultures and bacterial microorganisms ferment processing aids, including enzyme preparations.

5. Cosmetic products; Vehicles and oral hygiene products.

6. Disinfectants, pest and deratization means (for use at home, in health care facilities and other facilities (except used in veterinary medicine)).

7. Household chemistry.

8. Potentially hazardous chemical and biological substances and manufactured products based on them, posing a potential hazard to humans (except drugs), individual substances (compounds) of natural or synthetic origin, capable in terms of production, use, transportation, processing, as well as living conditions have adverse effects on human health and the environment.

9. Materials, equipment, devices and other technical means of water intended for use in drinking water supply.

10. Personal hygiene items for children and adults; subjects related to children three years: dishes and products used for child nutrition, hygiene items for the care of the child; clothes for children (first layer).

11. Products intended for contact with food (except kitchenware, tableware, process equipment).

Importation and circulation of goods specified in paragraphs 1 - 11 of this section is carried out in the presence of a document confirming their safety in accordance with paragraphs 17 and 30 of the Regulation on the procedure of state sanitary and epidemiological supervision (control) for persons and vehicles crossing the customs border of the Customs Union, controlled goods moved across the customs border of the Customs Union and in the customs territory of the Customs Union.

Subject to state registration for the first time produced in the customs territory of the Customs Union, as well as first imported into the customs territory of the Customs Union of controlled goods included in the following exhaustive position HS TC in accordance with the above groups:

HS Code	Group 02 Meat and edible meat offal
From 0210~	Meat and edible meat offal, salted, in brine, dried or smoked, produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents; food flours and meals of meat or meat offal, obtained with the use of genetically modified (transgene) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
HS Code	Group 03 Fish and crustaceans, mollusks and other aquatic invertebrates
From 0305	Dried, salted or in brine obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products , food additives, complex food additives, fragrance-congestion ; fish hot or cold smoked obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products , food additives, complex food additives, flavoring agents ; Fish flours and meals and pellets of fish, fit for human consumption, obtained with the use of genetically engineered or modified (transgenic-tion) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw material for their production, organic products, food additives, complex food additives, flavors
From 0306	Crustaceans, whether in shell or not, dried, salted or in brine, except for fresh, live, chilled, frozen, obtained with the use of genetically-modified Rowan (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents ;crustaceans, in shell, cooked by steaming or boiling in water, dried, salted or in brine except fresh, refrigerated, non-refrigerated, frozen, obtained with the use of genetically modified (transgene) organisms and (or) are (according to the manufacturer's documentation (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex

	<p>food additives, flavoring agents ; flours, meals and pellets of crustaceans, fit for human consumption, produced using genetically-modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives food or raw material for their production, organic products, food additives, complex food additives, flavors</p>
From 0307	<p>Clams in shell or not, dried, salted or in brine, except for fresh, live, chilled, frozen, obtained with the use of genetically-modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents ; aquatic invertebrates other than crustaceans and molluscs, dried, salted or in brine, except for fresh, live, chilled, frozen, obtained with the use of genetically-modified (transgenic) organisms and (or) are (according to the manufacturer's documentation (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents ; flours, meals and pellets of aquatic invertebrates other than crustaceans, fit for human consumption, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors</p>
HS Code	Group 04 Dairy products; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included
From 0401	<p>Milk and cream, with the exception of raw and aft, not concentrated nor containing added sugar or other sweetening matter, obtained with the use of genetically modified (transgene) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized food products, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors.</p>
From 0402	<p>Milk and cream, concentrated or containing added sugar or other sweetening matter, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors</p>

From 0403	Buttermilk, curdled milk and cream, yogurt, kefir and other fermented or acidified milk and cream, concentrated or not concentrated nor containing, with or without added sugar or other sweetening matter or flavored or without them, with or without the addition of fruit, nuts or cocoa produced using genetically-modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0404	Whey, condensed or non-condensed, with or without added sugar or other sweetening matter, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives food or raw material for their production, organic products, food additives, complex food additives, flavoring agents; products consisting of natural milk constituents, whether or not containing added sugar or other sweetening matter, not elsewhere specified or included, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0405	Butter and other fats and oils derived from milk produced using genetically-modified-tion (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents ; dairy spreads obtained with the use of genetically modified (transgene-tion) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives , complex food additives, flavors.
From 0406	Cheese and curd obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized food, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors.
00 of 0407	Birds' eggs, in shell, preserved or cooked, suitable for consumption, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized food, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0408 19 810 0	Egg yolks, liquid, suitable for human consumption, obtained with the use of genetically-modified (transgenic) organisms and (or) are (according to the documents the manufacturer

	(manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0408 19 890 0	Egg yolks, including frozen, fit for human consumption in food obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized food, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0408 99 800 0	Birds' eggs, not in shell, cooked by steaming or boiling in water, molded, frozen or otherwise preserved, with or without added sugar or other sweetening matter suitable for human consumption, obtained from the use of genetically engineered - (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0409 00 000 0	Honey produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized food, biologically active additives to food or raw materials for their production, organic products, food additives , complex food additives, flavors
From 0410 00 000 0	Edible products of animal origin suitable for human consumption, in the not elsewhere specified or obtained from the use of genetically engineered or modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives food or raw material for their production, organic products, food additives, complex food additives, flavors
HS Code	Group 07 Edible vegetables and certain roots and tubers
From 0712	Dried vegetables, whole, cut, sliced, broken or in powder, but not further prepared, produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized food biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0713	Dried leguminous vegetables, shelled, peeled or unpeeled seed coat, chipped or not skinned produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw material for their production, organic products, food additives, complex food additives, flavors
From 0714	Manioc, arrowroot, salep, Jerusalem artichoke, or Jerusalem artichokes, sweet potatoes, or sweet potatoes and similar roots and tubers with high starch or inulin content, dried, whole or sliced or

	in the form of pellets, resulting from the use of genetically modified (transgene) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents ; sago produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
HS Code	Group 08 Edible fruit and nuts; peel of citrus fruit or melons
From 0801	Coconuts, Brazil nuts and cashew nuts, dried, shelled or peeled, with skin or without skin, produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food products, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0802	Other nuts, dried, shelled or unpeeled, with skin or without skin, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
00 of 0803	Bananas, including plantains, dried, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0804	Dates, figs, pineapples, avocados, guavas, mangoes and mangosteens, or Garcinia, dried, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active food additives or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0805	Citrus fruit, dried, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0806	Dried grapes produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food product, biologically active additives to food or raw materials for their production, organic products

From 0811	Fruit and nuts, cooked in boiling water or steamed, with or without added sugar or other sweetening matter, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0812	Fruit and nuts, provisionally preserved (for example, by sulfur dioxide gas, in brine, in sulfur water or in other preservative solutions), but unsuitable in that state for immediate consumption, obtained with the use of genetically modified (transgene) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0813	Fruit, dried, other than that of headings 0801 - 0806, obtained with the use of genetically-modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their manufacture, organic products, food additives, complex food additives, flavoring agents ; mixtures of nuts or dried fruits of this group, obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products , food additives, complex food additives, flavors
From 0814 00 000 0	Peel of citrus fruit or melons (including rind of watermelon), dried or provisionally preserved in brine, in sulfur water or in other preservative solutions, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
HS Code	Group 09 Coffee, tea, mate, or Paraguay tea, and spices (Used for food production or food products)
From 0901	Coffee, roasted or unroasted, caffeinated or decaffeinated, obtained with the use of genetically-modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents ; coffee substitutes containing coffee in any proportion obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food, biologically active additives to food or raw materials for their production , organic products, food additives, complex food additives, flavors

From 0902	Tea flavored or without resulting from the use of genetically modified (transgene) organisms and (or) are (according to the documents the manufacturer) specialized food product, biologically active additives to food or raw materials for their production , organic products
From 0903 00 000 0	Mate or Paraguay tea produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0904	Pepper of the genus Rirer produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents ; fruits of the genus or family Carsicum Rimenta, dried or crushed or ground, obtained with the use of genetically modified (transgene) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0905 00 000 0	Vanilla obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring
From 0906	Cinnamon and cinnamon-tree flowers, produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0907 00 000 0	Cloves (whole fruit, cloves and flower stalk), obtained with the use of genetically modified (transgene) organisms and (or) are (according to the documents the manufacturer) specialized food product
From 0908	Nutmeg, mace and cardamoms produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 0909	Seeds of anise, star anise, fennel, coriander, cumin, caraway or Voloshskaya or cumin obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active food additives or raw materials for their production, organic products, food additives, complex food additives,

	flavoring agents ; juniper berries produced using genetically-modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives , complex food additives, flavors
From 0910	Ginger, saffron, turmeric (curcuma), thyme or thyme, bay leaves, curry and other spices obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
HS Code	Group 11 Products of the milling industry; malt; starches; inulin; wheat gluten
00 of 1101	Wheat or rye., packaged for retail sale (used for human consumption or production of food products), obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food products, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1102	Flour from grain cereals other than wheat or rye (used for human consumption or production of food products), obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized –rowan foodstuff, biologically active additives to food or raw materials for their production, organic products
From 1103	Groats, meal and pellets of cereals (used for human consumption or production of food products), obtained with the use of genetically-modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1105	Flour, meal, powder, flakes, granules, potato (used for human consumption or production of food products), obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (producer) specialized food products
From 1106	Flour, meal and powder of the dried leguminous vegetables of heading 0713, of sago or of roots or tubers of heading 0714 or product group 08 (used for food or food production) obtained using genetic engineering modified (transgenic) organisms and (or) are (according to the documents the manufacturer (producer) specialized food
From 1107	Malt, whether or not roasted, used for food or food production
From 1108	Starch obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw

	materials for their production, organic products, food additives, complex food additives, flavoring agents; inulin used for food production or food
HS Code	Group 12 Oil seeds and oleaginous fruits; Other seeds, fruit and grain; herbs and plants for technical purposes; straw and fodder
From 1208	Flours and meals of oil seeds or oleaginous fruits, other than those of mustard obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (producer) specialized food product
From 1210	Hop cones, dried, crushed or uncrushed, in powder form or in the form of granules, for use in the production of foodstuffs; lupulin for use in food production
From 1212	Locust beans, seaweeds and other algae, sugar beet and sugar cane , dried, whether or not broken, for use in food production; fruit stones and kernels and other vegetable products (including unroasted chicory roots of the species Cichorium intybus sativum), used primarily for human consumption, not elsewhere specified or included, intended for use in food production
HS Code	Group 13 Lac; gums, resins and other vegetable saps and extracts
From 1301	Lac, intended for use in food production; natural gums, resins, resins and oleoresins (e.g., balsams) intended for use in food production
20 of 1302	Pectic substances, pectinates and pectates intended for use in food production
From 1302 31 000 0	Agar-agar, for use in food production
32 of 1302	Adhesives and thickening of the fruit and seeds of the carob seed or Cyamopsis or guar, modified or unmodified, are intended for use in food production
HS Code	Group 15 Fats and oils of animal or vegetable origin and their cleavage products; prepared edible fats; waxes of animal or vegetable origin
00 of 1501	Pork fat (including lard) and poultry fat, other than fat of heading 0209 or 1503, used for human consumption or for the manufacture of food products obtained using genetically modified (transgenic-tion) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
00 of 1502	Fats of bovine animals, sheep or goats, other than fat of heading 1503 used for human consumption or for the production of food products produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer

	(manufacturer)) specialized food product, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, Flavors, ramie
00 of 1503	Lard stearin, lard oil, oleostearin, oleo-oil and tallow oil, not emulsified or mixed or prepared in any other way used for human consumption or for the production of food products produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1504	Fats and oils and their fractions, of fish or marine mammals, whether or not refined, but not chemically modified, used for human consumption or for the production of food products produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1506 00 000 0	Other animal fats and oils and their fractions, whether or not refined, but not chemically modified, used for human consumption or for the manufacture of food products obtained using genetically modified-tion (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1507	Soya-bean oil and its fractions, whether or not refined, but not chemically modified, used in food industry, produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food products, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1508	Peanut oil and its fractions, whether or not refined, but not chemically modified, applied in the food industry, produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
Of 1509	Olive oil and its fractions, whether or not refined, but not chemically modified, applied in the food industry, produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors

00 of 1510	Other oils and their fractions, obtained solely from olives, or olives, whether or not refined, but not chemically modified, including blends of these oils or fractions with oils or fractions of heading 1509 used in the food industry, produced using genetic engineering modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1511	Palm oil and its fractions, whether or not refined, but not chemically modified, applied in the food industry, produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1512	Sunflower-seed, safflower or cotton-seed and fractions thereof, whether or not refined, but not chemically modified, used in food industry, produced using genetically-modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1513	Coconut (copra), palm kernel or babassu oil and fractions thereof, whether or not refined, but not chemically modified, used in food industry, produced using genetically-modified (transgenic) organisms and (or) are (according to documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1514	Rape oil (of rape or colza) or mustard oil and fractions thereof, whether or not refined, but not chemically modified, used in food industry, obtained with the use of genetically-modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1515	Other fixed vegetable fats and oils (including jojoba oil) and their fractions, whether or not refined, but not chemically modified, used in food industry, produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1516	Fats and oils of animal or vegetable oils and their fractions, partly or wholly hydrogenated, esterified, esterified or elaidinized, whether or not refined, but not further prepared, used in the food industry, produced using genetically modified (transgenic) organisms and (or) are

	(according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1517	Margarine produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized food product, biologically active additives to food or raw materials for their production, organic products ; suitable for use in food mixtures or preparations of animal or vegetable fats or oils or of fractions of different fats or oils of this chapter, other than edible fats or oils or their fractions of heading 1516, obtained with the use of genetically modified (transgene-governmental) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
HS Code	Group 16 Preparations of meat, fish or crustaceans, molluscs or other aquatic invertebrates
1601 00	Sausages and similar products, of meat, meat offal or blood, other than crude produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents ; food preparations based thereon, other than crude, obtained with the use of genetically-modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food Additives, complex food additives, flavors
From 1602	Prepared or preserved meat, meat offal or blood, other than crude produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active food additives or raw materials for their production, organic products, food additives, complex food additives, flavors
00 of 1603	Extracts and juices of meat, fish or crustaceans, molluscs or other aquatic invertebrates, prepared using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1604	Prepared or preserved fish, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives , complex food additives, flavoring agents ; caviar and caviar substitutes prepared from fish eggs, except for raw, frozen, obtained with the use of genetically modified (transgene) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs,

	biologically active food additives or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1605	Prepared or preserved crustaceans, molluscs and other aquatic invertebrates, prepared using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production , organic products, food additives, complex food additives, flavors
HS Code	Group 17 Sugar and sugar confectionery
From 1701	Cane or beet sugar and chemically pure sucrose, in solid form, with the exception of raw sugar produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1702	Other sugars, including chemically pure lactose, maltose, glucose and fructose, in solid form, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives food or raw material for their production, organic products, food additives, complex food additives, flavoring agents ; sugar syrups not containing added flavoring or coloring matter, obtained with the use of genetically-modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their manufacture, organic products, food additives, complex food additives, flavoring agents ; artificial honey, whether or not mixed with natural honey produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer (manufacturer)) specialized foodstuffs, biologically active additives to food or raw materials for their production , organic products, food additives, complex food additives, flavoring agents ; caramel produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavorings
From 1704	Sugar confectionery (including white chocolate), not containing cocoa, other than drugs obtained with the use of genetically-modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
HS Code	Group 18 Cocoa and its products
From 1801 00 000 0	Cocoa beans, whole and crushed, roasted, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized

	foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1803	Cocoa paste, defatted or non-defatted obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
1804 00 0000	Cocoa butter, cocoa fat, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1805 00 000 0	Cocoa powder, not containing added sugar or other sweetening matter, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1806	Chocolate and other food preparations containing cocoa produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
HS Code	Group 19 Preparations of cereals, flour, starch or milk; pastry
From 1901	Malt extract obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents ; food preparations of flour, groats, meal, cereals, starch or malt extract, not containing cocoa or containing less than 40 wt.% of cocoa calculated on a totally defatted basis, not elsewhere specified or included, except for the production of bread dough and flour confectionery products of heading 1905, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents ; food preparations of goods of headings 0401 - 0404, not containing or containing less than 5 wt.% of cocoa calculated on a totally defatted basis, not elsewhere specified or included, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors

From 1902	Pasta, not cooked or stuffed (with meat or other substances) or unfilled obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1903 00 000 0	Tapioca and substitutes therefor prepared from starch, in the form of flakes, pellets, granules, pellets or similar forms produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1904	Prepared foods obtained by the swelling or roasting of cereals or cereal products (for example, corn flakes), obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food-ized products, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents ; cereals (except corn) in grain form or in the form of flakes or grains, processed by a different way (except flour, meal, grains), pre-cooked or otherwise prepared in nes or included obtained using genetically-modified-tion (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 1905	Pastry, biscuits and other bakers' wares, whether or not containing cocoa produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active food additives or raw materials for their production, organic products, food additives, complex food additives, flavoring agents ; sealing wafers, rice paper and similar products obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production , organic products, food additives, complex food additives, flavors
HS Code	Group 20 Preparations of vegetables, fruit, nuts or other parts of plants
From 2001	Vegetables, fruit, nuts and other edible parts of plants, prepared or preserved by vinegar or acetic acid, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 2002	Tomatoes prepared or preserved otherwise than by vinegar or acetic acid, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the

	manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 2003	Mushrooms and truffles, prepared or preserved otherwise than by vinegar or acetic acid, obtained with the use of genetically modified transgene-tion) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 2005	Other vegetables prepared or preserved otherwise than by vinegar or acetic acid, not frozen, other than products of heading 2006, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized food biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
00 of 2006	Vegetables, fruit, nuts, fruit-peel and other parts of plants, preserved by sugar (soaked in sugar syrup, candied or crystallized), obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 2007	Jams, fruit jellies, marmalades, fruit or nut puree, fruit or nut paste, obtained by cooking, including with added sugar or other sweetening matter, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 2008	Fruit, nuts and other edible parts of plants, prepared or preserved in any other way, whether or not containing added sugar or other sweetening matter or spirit, not elsewhere specified or included, obtained using genetically modified-tion (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
From 2009	Fruit juices (including grape must) and vegetable juices, unfermented and not containing added spirit, with or without added sugar or other sweetening matter, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
HS Code	Group 21 Various foods

From 2101	Extracts, essences and concentrates of coffee, tea or mate or papagvayskogo tea, and finished products based on them or on the basis of coffee, tea or mate or papagvayskogo tea produced using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents ; roasted chicory and other roasted coffee substitutes, and extracts, essences and concentrates thereof obtained using genetically modified-tion (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives food or raw material for their production, organic products, food additives, complex food additives, flavors
2102	Yeast (active or inactive); other dead single-celled microorganisms (but not including vaccines of heading 3002); prepared baking powders
From 2103	Products for cooking sauces and ready-made sauces, obtained with the use of genetically modified (transgene) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents; flavorings and seasonings mixed obtained using genetically modified-tion (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products , food additives, complex food additives, flavoring agents ; mustard powder and prepared mustard obtained using genetically modified-tion (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products , food additives, complex food additives, flavors
From 2104	Soups and broths ready and preparations thereof obtained using genetically modified-tion (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavoring agents ; homogenised composite food preparations obtained using genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
00 of 2105	Ice cream and other edible ice, whether or not containing cocoa produced using genetically modified (transgenic) organisms; are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors

From 2106	Food preparations not elsewhere specified or included, obtained with the use of genetically modified (transgenic) organisms and (or) are (according to the documents the manufacturer) specialized foodstuffs, biologically active additives to food or raw materials for their production, organic products, food additives, complex food additives, flavors
HS Code	Group 22 Alcoholic and non-alcoholic beverages and vinegar
2201 10	Mineral and aerated water
2202	Waters, including mineral waters and aerated waters, containing added sugar or other sweetening matter or flavored, and other non-alcoholic beverages, not including fruit or vegetable juices of heading 2009
2203 00	Beer made from malt
2204	Wine of fresh grapes, including fortified wines; grape must other than that of heading 2009
2205	Vermouth and other wine of fresh grapes flavored with plants or aromatic substances
2206 00	Other fermented beverages (for example, cider, Perry, or pear cider, mead); mixtures of fermented beverages and mixtures of fermented beverages and non-alcoholic beverages, not elsewhere specified or included
2208	Denatured ethyl alcohol with the alcohol concentration of less than 80 vol.%; spirits, liqueurs and other spirituous beverages
00 of 2209	Substitutes for vinegar obtained from acetic acid is a dietary supplement, complex food additives
HS Code	Group 25 Salt; sulfur; earth and stone; plastering materials, lime and cement
From 2501 00 91	Salt suitable for human consumption, which is according to the documents the manufacturer (producer) specialized food product
HS Code	Group 29 Organic chemicals
From 2915	Saturated acyclic monocarboxylic acids and their anhydrides, halides, peroxides and peroxyacids; their halogenated, sulfonated, nitrated or nitro sated derivatives
From 2916	Unsaturated acyclic monocarboxylic acids, cyclic monocarboxylic acids, their anhydrides, halides, peroxides and peroxyacids; their halogenated, sulfonated, nitrated or nitro sated derivatives
From 2917	Polycarboxylic acids, their anhydrides, halides, peroxides and peroxyacids; their halogenated, sulfonated, nitrated or nitro sated derivatives
From 2918	Carboxylic acids with additional oxygen function and their anhydrides, halides, peroxides and

	peroxyacids; their halogenated, sulfonated, nitrated or nitro sated derivatives
From 2919	Phosphoric esters and their salts, including lacto phosphates; their halogenated, sulfonated, nitrated or nitro sated derivatives
From 2920	Esters of other inorganic acids nonmetals (excluding esters halides) and their salts; their halogenated, sulfonated, nitrated or nitro sated derivatives
From 2921	Amine functional group
From 2922	Amine compounds, oxygen-containing functional group comprising
From 2923	And salts of quaternary ammonium hydroxides; lecithins and other phosphoaminolipids, whether or not chemically defined
From 2924	Function compounds Carboxamide; carbonic acid compound containing an amide functional group
From 2925	Compounds containing a functional Carboximide (including saccharin and its salts), and compounds containing a functional group imine
From 2926	Compounds containing nitrile functional group
From 2927 00 000 0	Diazo, azo or azoxy
00 of 2928	Derivatives of hydrazine or of hydroxylamine
From 2929	Compounds containing other nitrogen-containing functional groups
From 2930	Organo-sulfur compounds
00 of 2931	Organic and inorganic compounds other
From 2932	Heterocyclic compounds containing a hetero atom (s) oxygen
From 2933	Heterocyclic compounds containing a hetero atom (s), nitrogen
From 2934	Hukleinovye acids and their salts, whether or not the chemical composition; heterocyclic compounds
00 of 2935	Sulfonamides
From 2936	Provitamins and vitamins, natural or synthetic (including natural concentrates), derivatives thereof, used primarily as vitamins, and mixtures thereof, including any solvent

HS Code	Group 32 Tanning or dyeing extracts; tannin and derivatives thereof; dyes, pigments and other coloring matter; paints and varnishes; putty and other mastics; Printing ink, ink, ink
3201	Tanning extracts of vegetable origin; tannins and their salts, ethers, esters and other derivatives
3202	Synthetic organic tanning substances; inorganic tanning substances; tanning preparations, whether or not containing natural tanning substances; enzymatic preparations for pre-tanning
3203 00	Colouring matter of vegetable or animal origin (including dyeing extracts but excluding animal black), whether or not chemically defined; preparations based on coloring matter of vegetable or animal origin, as defined in Note 3 to this Chapter
3204	Synthetic organic coloring matter, whether or not chemically defined; preparations based on synthetic organic coloring matter specified in note 3 to this chapter ; synthetic organic products of a kind used as fluorescent brightening agents or as luminophores, whether or not chemically defined.
3205 00 000 0	Colour lakes; preparations based on color lakes, specified in note 3 to this chapter
From 3206 From 3207 From 3212 From 3214	Other coloring matter; preparations as specified in note 3 to this chapter , other than those of heading 3203, 3204 or 3205; inorganic products of a kind used as luminophores, whether or not chemically defined primers, pigments, paints, enamels, water-based paints, putty, putty
3208	Paints and varnishes (including enamels and lacquers) based on synthetic polymers or chemically modified natural polymers, dispersed or dissolved in a non-aqueous medium; solutions as defined in note 4 to this chapter
3209	Paints and varnishes (including enamels and lacquers) based on synthetic polymers or chemically modified natural polymers, dispersed or dissolved in an aqueous medium
3210 00	Other paints and varnishes (including enamels, lacquers and distempers); prepared water pigments used for finishing leather
HS Code	Group 33 Essential oils and resinoids; perfumery, cosmetic or toilet preparations
From 3301	Essential oils (whether or not containing terpenes), including concretes and absolutes; resinoids, used for the production of food and cosmetic products ; extracted essential oils used for the production of food and cosmetic products ; concentrates of essential oils in fats, in fixed oils, in waxes or the like, obtained by enfleurage or maceration, used for the production of food and cosmetic products ; terpenic by-products of the deterpenation of essential oils used in the production of food and cosmetic products ; aqueous distillates and aqueous solutions of essential oils, used for the production of food and cosmetic products

3302 10	Mixtures of odoriferous substances and mixtures (including alcoholic solutions) based on one or more of these substances used in the food industry, are used for the production of beverages ;other preparations based on odoriferous substances, used for the manufacture of beverages
3304	Beauty or make-up preparations and preparations for the care of the skin (other than medicaments), including sunscreen or sun tan preparations; manicure or pedicure
3305	Hair products
3306	Hygiene of oral cavity or teeth, including fixative pastes and powders for dental prostheses; yarn used to clean between the teeth (dental floss), in individual retail packages
From 3307	Funds used before, during, or after shaving, personal deodorants, bath preparations, depilatories and other cosmetic or toilet preparations, not elsewhere specified or included; prepared room deodorizers, perfumed or having or not having disinfectant properties
HS Code	Group 34 Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial and prepared waxes, compounds for polishing or scouring preparations, candles and similar articles, modeling pastes, plasticine, "dental waxes" and dental preparations with a basis of plaster
of 3401	Toilet soap in the form of bars, in the form of agglomerates or moldings not containing medicines; Soap in other forms; Organic surface-active agents and means for washing the skin in the form of liquid or cream, packaged for retail sale, whether or not containing soap
3402 20	Surface-active agents (other than soap); surface-active preparations, washing preparations (including auxiliary washing preparations) and cleaning preparations, whether or not containing soap (other than those of heading 3401); put up for retail sale
3402 90	Surface-active agents (other than soap); surface-active preparations, washing preparations (including auxiliary washing preparations) and cleaning preparations, whether or not containing soap (other than those of heading 3401); other
From 3403	Funds used for the oil or grease treatment of textile materials, leather, furskins or other materials containing petroleum oils or oils obtained from bituminous minerals
3405 40 000 0	Scouring pastes and powders and other scouring preparations
HS Code	Group 35 Protein substances; modified starches; adhesives; enzymes
From 3501	Casein, caseinates and other casein derivatives, casein glues, used in food production
From 3502	Albumins (including concentrates of two or more whey proteins containing more than 80 wt.%)

	Whey protein based on dry matter), albuminates and other derivatives of albumin, used in food production
00 of 3503	Gelatin (including rectangular (including square) sheets, surface treated or untreated, painted or unpainted), and gelatin derivatives, are used in the manufacture of food products; fish glue, used in food production; animal glues other than casein of heading 3501, used in food production
From 3504 00 000	Peptones and their derivatives, used in the manufacture of food products; other protein substances and their derivatives, not elsewhere specified or included, used in food production; hide powder, or offal, whether or not chromed, used in food production
From 3505	Dextrines and other modified starches (e.g., starch, pregelatinised or esterified), are used in food production ; glues based on starches or dextrans, other modified starches, or used in the production of foodstuffs
From 3507	Enzymes; prepared enzymes not elsewhere specified or included, except used in veterinary medicine
HS Code	Group 38 Other chemical products
From 3802 10 000 0	Activated carbon for use in the practice of drinking water supply
From 3808	Insecticides, rodenticides, fungicides, herbicides, anti-money and plant-growth regulators, disinfectants and similar products, put up in forms or packings for retail sale or as preparations or articles (for example, sulfur-treated bands, wicks and candles, and paper sticky fly-) - for use in the home, in health care facilities and other facilities to ensure the safety and health of people (except veterinary)
3809	Finishing agents, to accelerate the dyeing or fixing of dyestuffs and other products and preparations (for example, materials for dressings and mordants), used in the textile, paper, leather or like industries, not elsewhere specified or included
3814 00	Solvents and thinners complex organic, not elsewhere specified or included; finished formulations for paint or varnish removers
3820 00 000 0	Antifreeze and de-icing fluid ready
HS Code	Group 39 Plastics and articles thereof
From 3917	Pipes, tubes, hoses and fittings therefor (for example, joints, elbows, flanges), of plastics (for drinking water); artificial membranes (sausage) of hardened protein or of cellulosic materials

From 3920	Plates, sheets, film, foil and strip, other, of plastics, non-cellular and not reinforced, laminated, supported or similarly combined with other materials intended for contact with food
From 3923	Articles for the conveyance or packing of goods of plastics (boxes, baskets and similar products) intended for contact with food
HS Code	Group 40 Rubber and articles thereof
From 4014	Sanitary ware, of vulcanized rubber other than hard rubber, with fittings of hard rubber or without them; different types of nipple and similar products for children
HS Code	Group 44 Wood and articles of wood; charcoal
From 4415	Cases, boxes, crates, drums and similar packings, of wood intended for food packaging
From 4416 00 000 0	Casks, barrels, vats, tubs and other coopers' products of wood intended for food packaging
HS Code	Group 45 Cork and articles of cork
From 4503	Articles of natural cork, intended for contact with food
HS Code	Group 48 Paper and paperboard; articles of paper pulp, paper or paperboard
00 of 4803	Toilet paper towels or facial tissue stock, towel or diaper and other kinds of paper for household or sanitary purposes
48 12 00 000 0	Blocks, slabs and plates of paper pulp filter, designed for use in the practice of drinking water supply.
From 4818	Toilet paper and similar paper, handkerchiefs, cleansing tissues, towels, tablecloths, napkins, diapers, tampons, bed sheets and similar products for household or sanitary purposes
4818 40	Sanitary towels and tampons, napkins and diapers and similar sanitary articles
From 4819	Boxes, cases, bags and other packing containers, of paper, paperboard intended for food packaging
From 4823 20 000 0	Filter paper and paperboard, for use in the practice of drinking water supply
HS Code	Group 56 Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof
5601 10	Sanitary towels and tampons, napkins and diapers and similar sanitary articles, of wadding

HS Code	Group 61 Articles of apparel and clothing accessories, knitted or crocheted
From 6107	Underpants, briefs, nightshirts, pajamas, bathrobes, dressing gowns and similar articles, knitted or crocheted for boys
From 6108	Slips, petticoats, briefs, panties, nightdresses, pajamas, negligees, bathrobes, dressing gowns and similar articles, knitted or crocheted for girls
From 6109	T-shirts, sweatshirts with sleeves and other vests, knitted or crocheted for boys and girls
From 6115	Tights, stockings, socks and other hosiery and footwear without applied soles, knitted or crocheted fabrics for boys and girls
HS Code	Group 62 Articles of apparel and clothing accessories, not knitted or crocheted
From 6207	T-shirts and other vests, underpants, briefs, nightshirts, pajamas, and similar articles for boys
From 6208	T-shirts and other vests, slips, petticoats, briefs, panties, nightdresses, pajamas, and similar articles for girls
From 6212	Bras, girdles, corsets, suspenders, garters and similar articles, knitted or crocheted, or not knitted for girls
HS Code	Group 63 Other made-up textile articles; sets; clothing and textiles that were in use; rags
From 6305	Bags and pouches intended for contact with food
HS Code	Group 70 Glass and glassware
From 7010	Carboys, bottles, flasks, jars, pots, jars, other glass containers for storage, transportation or food packaging, industrial and household goods
HS Code	Group 73 Metals and metal products
21 of 7310 29 of 7310	Tanks, casks, drums, cans, boxes and similar containers, of iron or steel, for any material (other than compressed or liquefied gas), of a capacity not exceeding 300 l., With lining or insulation, or without them, but not fitted with mechanical or thermal equipment, for except for a capacity of 50 liters. and more, intended for contact with food and drinking water
HS Code	Group 76 Aluminum and articles thereof
From 7612	Jars, metal, for milk and milk products
HS Code	Group 84 Nuclear reactors, boilers, machinery and mechanical appliances; parts
8413 70 300 0	Centrifugal pumps are sealed for heating systems and hot water supply

8421 21 000	Equipment and devices for filtering or purifying water
HS Code	Group 85 Electrical machinery and equipment and parts thereof; and sound-recording equipment, apparatus for recording and playback of television image and sound, and parts and accessories
8512 40 000	Windshield wipers, defrosters and demisters
10 of 8516	Water heaters
HS Code	Group 96 Miscellaneous manufactured articles
9603 21 000 0	Toothbrushes, including denture brushes

* For the purposes of the use of this list should be guided by both HS code TC, and Item Name

Section III

Goods that are not for the certificate of state registration, regardless of the assignment code

HS TC corresponds to the list of goods subject to state registration

HS コードの如何にかかわらず証明の対象外であるもの

- Samples of products designed for sanitary and epidemiological expertise for the purpose of registration of certificates of registration;
- Tobacco accessories (including pipes, stems), non-tobacco raw materials used for the manufacture of tobacco products;
- Goods intended for use as laboratory reagents, laboratory glassware (except for radiation-hazardous and infectious material containing native);
- Food raw materials (eggs, goose, etc.) Used for the preparation of culture media;
- Spare parts of cars, machinery and equipment for use in various industries (except represent a radiation hazard);
- Spare parts and accessories for information technology products, electronics and electrical appliances that do not have direct contact with food;
- Souvenirs, cosmetic accessories, accessories for photos;
- Products produced on the territory of the Customs Union of orders and specifications and technical documentation of foreign companies and intended for sale abroad;
- Exhibition and promotional product samples not intended for sale and use in the customs territory of the customs union;
- Products, the former in consumption, including sold through department stores and commission trade;
- Collection by pupils and students of educational institutions intended for participation in national and international festivals.
